

Medford Leas Calendar Users' Guide

This calendar has been established to help with advance planning. It features more than just a month-at-a-time, it has future and past events. There are also descriptions of events as appropriate (Pathways, Forums, Great Decisions, VidU etc.)

Mousingover. The calendar makes use of a technique called “mouseover.” There are items on the page that change when a cursor is over the item. When you mouseover these items a popup will appear – with either a menu or information.

The Medford Leas Calendar has four views: Agenda, Day, Month, and Week. The calendar has been set to show the current month when first opened. When you mouseover the word “Month” at the top-left of the calendar a dropdown menu (shown below) will appear which allows you to change to another view. If at any time you click the title at the top “Medford Leas Calendar” you will be taken back to the month view which was presented when you first opened the calendar. Bird Club events, which are imported from the calendar at mlra.org/MLBirders/, are in yellow.

Using the Month View

Mousing over an event provides a popup with date, time, topic, and a short description. The two images on the next page show popups with the time and location for Needlework and Crafts in the Fiber Arts Studio on April 17 and. Community Conversation in the Theater on April 25. When looking at the Month View the current date is shaded yellow. The screenshots on the next page were captured on April 24, and you can see the yellow shading for that date.

If there is an asterisk (*) preceding the name of the event, then the mouseover will produce a popup which contains a long description of the event. NOTE: **The Continue Reading words do not work.** There's A BUG in the program. However, if you **click the mouse while it's in the position to cause a popup**, then a page with the full description will appear. Pages will appear whenever you click on an event, but only the ones proceeded by an asterisk (*) have a page with a detailed description. Leas Forum and Evening in the Arboretum on April 26 have asterisks. Great Decisions on April 24 and Evening in the Arboretum on April 26 have dollar signs (\$) because of fees.

Program
This program is designed to answer the questions “what functions of the brain are normally affected by aging? And how do I distinguish what is normal and what is abnormal mental decline?” In this fun and informative program, you will practice and learn simple strategies that you can employ on your own to slow down the effects of age-related cognitive decline. This program promises to be fun, informative and interactive. At the end of the program, you will leave with ideas of how to continue your own brain fitness program at home.

Speaker
Gerry Stride, Active Living Director at Medford Leas, has worked with older adults in various capacities for more than 35 years. In 2006 Medford Leas was awarded the Innovation of the Year award, by the New Jersey Association of Homes and Services for the Aging, for the Brain Fitness program that Gerry helped to develop. Having lectured on the topic of Brain Fitness at professional conferences and at various communities throughout Pennsylvania and New Jersey, Gerry brings great energy
